

Dr. Jim Thurman, DDS: I retired from my Oral Surgery practice after practicing 30 years. I was Valedictorian of my dental class of 1986 in Memphis, TN. I trained in Oral Surgery at UT Memphis and the Regional Medical Center from 1986-1989. At that time The Med was one of the country's busiest trauma centers. Since retiring my wife and I have been part-timers in a cabin in Epworth, Georgia. In our spare time we both volunteer at Project Chimps whenever we can. I look forward to being of any service possible to the chimps or it's support staff.
